

<u>PROJECT NAME:</u>	EASTERLIN PARK – CAMPGROUND IMPROVEMENTS
<u>PROJECT LOCATION:</u>	City of Oakland Park
<u>PROJECT DESCRIPTION:</u>	
Infrastructure upgrades for campsites D1 through D10 including water, sewer and electrical	
<u>THOMPSON & ASSOCIATES ROLE:</u>	
As the Engineer of Record, we are providing engineering services to design and provide administration of the construction contract for the installation of potable water & sewer connections to camp sites D1 through D10; for the installation of gate valves throughout the park for the potable water system and for the repair of the existing double detector check valve assembly near the entrance of the park. The scope includes the civil engineering and topographic survey.	
<u>PROJECT START DATE:</u>	November 2018
<u>PROJECT END DATE:</u>	August 2019
<u>CLIENT NAME:</u>	Broward County Parks & Recreation Division
<u>CLIENT CONTACT:</u>	Michael Halupke mhalupke@broward.org 954-577-4637
