

PROJECT NAME:	PORT EVERGLADES BY-PASS ROAD
PROJECT LOCATION:	Broward County, Florida
PROJECT DESCRIPTION:	
<p>The Port Everglades By-Pass Road will be located through the port and connect US 1 / SR A1A to 17th Street Causeway. This is an FDOT Local Agency Program (LAP) Project which received funding from FDOT and Broward County. As part of the Transportation Surtax funds, Broward County has prioritized this project as essential to meeting the Port Everglades transportation needs. The proposed 2-lane road will consist of a curb and gutter section and incorporate bridges.</p>	
THOMPSON & ASSOCIATES ROLE:	
<p>As the engineer-of-record, and subconsultant to WSP, T&A is responsible for the design and permitting of the surface water management system and the utility relocations. Included in the design are all of the drainage structures, stormwater pipes, exfiltration trench, drainage wells, drainage calculations including water quality and flood routing, as well as all potable water main, gravity sanitary sewer, and force main relocations required by the proposed roadway.</p>	
PROJECT START DATE:	February 2021
PROJECT END DATE:	Project is currently in design
