

PROJECT NAME: **BRIDGEPORT CHARTER SCHOOL**

PROJECT LOCATION: City of Doral, Florida

PROJECT DESCRIPTION:

As part of the Bridgeport charter school development, Doral, FL, the City of Doral required a pedestrian/bicycle bridge over the Dressel's Dairy Canal in the rear of the School. The bridge promoted walking, biking, and reduced vehicular drop offs to the school from the residential neighborhoods to the north as part of the Dressel's Dairy Trail. The span of the bridge was approximately 100 LF, and was permitted through the South Florida Water Management District (canal owner).

THOMPSON & ASSOCIATES ROLE:

T&A is the engineer-of-record for the project and will complete a due diligence report, preliminary design, final design, permitting, bidding assistance, and construction inspection services. Prepared the final design packages including demolition, site preparation, paving; grading; drainage collection systems; water distribution system; wastewater collection system; signage; pavement marking; and erosion and sediment control plans.

PROJECT START DATE: 2020

PROJECT END DATE: In design, anticipated completion August 2021
