

PROJECT NAME:	LONG KEY NATURE CENTER – VOLUNTEER WETLANDS
PROJECT LOCATION:	Town of Davie
PROJECT DESCRIPTION:	Conversion of existing overgrown upland area to a new wetland. Estimated construction value of \$1,000,000.
THOMPSON & ASSOCIATES ROLE:	As the Engineer of Record, we are providing engineering services to design, permit, provide assistance during bidding and award and provide construction phase services for the construction of a volunteer wetland located at Long Key Nature Center. The project includes a volunteer wetland, paved and unpaved trail system, static educational display for the historic train platform and a tree island with pavilion located within the wetlands. The scope includes the preparation of the site civil plans, biological services, site grading, architectural plans, landscape planting plans, tree survey, and permitting through State, County and local regulatory agencies.
PROJECT START DATE:	July 2018
PROJECT END DATE:	October 2020
